

HOA Board Meeting Summary

March 2008

The following topics were discussed at the meeting:

- **Neighborhood Watch Program** -- 75% of homeowners have signed up supporting the implementation of this program. The next step is a community meeting where an officer from Cobb Co. Police comes and talks with the homeowners. Watch for date, time & place on the website and or a sign near the pool/tennis courts.
- **New Landscaping Co. to replace Happy Planet in mid April.** We can save money if we have a neighborhood work day to put out 335 bales of pine straw in the common areas. Email [Patti Berger](#), VP via the OEL website if you can volunteer. We will need lots of help!
- **A key or card system is being considered for the pool area.** We have learned that homeowners gave their code to non OEL residents for pool use. The pool cover is off and the process started to open the pool. Usually opening is at the end of May.

If you have a question or concern about OEL, please use the website and [email a Board Member](#). We will bring the issue to the next monthly meeting.
